

Easy Coin Purse Keychain

Supplies for each:

Four 5" squares: (2 for lining, 2 for outer)
SF101 Interfacing: Two 5" squares
One #3 zipper with plastic teeth 8" or longer
One split key ring or D ring
Glue (glue stick, hexie glue, school glue, etc)
OR double sided seam tape

RSF: Right Sides Facing
RSO: Right Sides Out
WSF: Wrong Sides Facing
WSO: Wrong Sides Out

- 1) Fuse SF 101 to back of outer fabric
- 2) Align top of each outer fabric with the top of a lining piece, RSF, and sew just the top, with a $\frac{1}{4}$ " seam.
- 3) Press the seam and fold RSO/WSF. Sometimes I leave a little of the lining peaking out above the outer as faux piping.
- 4) Lay the closed zipper face up with the pull on the left. Make 2 marks on the top of the zipper 5" apart and centered on the zipper tape. Place a little glue or a strip of seam tape on the bottom half of zipper tape between the marks.
- 5) Place the front outer piece on top of the glue/tape, between the marks. Press to set glue, then top stitch using a zipper foot. Repeat with the back piece on the other side of the zipper tape.
- 6) Fold pouch WSO. Fold it flat with the zip pull on the right and the zipper $\frac{1}{4}$ - $\frac{1}{2}$ " from the top. The front piece will be longer. Cut this section off even with the back. Use one of those pieces to make the keyring Tab.
- 7) **Open the zipper to the middle of the pouch body.** Pin the body so that it doesn't shift. Cut off the excess zipper tape.
- 8) Fold/press the Tab fabric in half then each raw edge to the center. Fold back in half to enclose the raw edges. Stitch down both sides. Cut to 3". Slip the split ring on it and fold in half.
- 9) Insert Tab between the outer and lining, just below the zip with raw edges sticking out a bit and the split ring inside.
- 10) Sew the 3 sides closed with $\frac{1}{4}$ " seam. Trim corners & turn.
